

I have worked with Josh and Wayzata Results for a few years now and in several different capacities. As a Meet Director I have found Josh to be proactive in identifying issues and solutions to make the meet better and to minimize the day of the meet issues. He strives to make your meet as good as it can be. As a coach I find him to be approachable and responsive to requests for information or to make adjustments when required. As a fellow official when I work a meet with Josh, I find that he is keeps the big picture in mind and does what is needed so that his fellow officials can do their jobs timely and well.
